Base equipment

Benefit

Backrest

Large, ergonomically designed backrest to take the strain off the spine and muscles with integrated lumbar support.

Healthy posture due to a hump providing support for the back in the lumbar region.

Seat

Backrest height adjustment convenient and easy to handle in sitting position.
Ergonomically designed seat with rounded front edge.

The support area can be adapted in accordance to the user's body size.
The round front edge of the seat prevents blocked circulation in the thighs.

Seat and backrest design

Plywood, Beech:
Seat and backrest made of multi-bonded beech plywood, natural varnished.

This washable material is particularly well suited to environments that contain aggressive substances. Wood is highly resistant, robust, durable and easy to clean. Although wooden chairs cost less, the hard surface does make them slightly less comfortable to sit on.

Seat height

Stepless seat height setting from 580 - 850 mm supported by safety gas spring with protective cover. Using stop-and-go-castors, the seat height increases by 4 cm.

Seat height can be adapted to nearly 95 % of all body sizes, the cover protects the gas spring from dust and dirt.

Technology

Permanent contact-backrest

This mechanism ensures that the backrest responds immediately to any movements of the upper body by following them. Thus, the back remains supported all the time. The backrest can also be locked into any tilt position if required.

Quick adjustment

Every function can be operated comfortable and easy in sitting position.

Base

Black 5 star base made from plastic.
Flat design.

Very high stability, longevity and safety
Flat design prevents stumbling hazard.

Glides

Wearproof plastic glides with a large surface Area.

Offer a superb level of stability.

Foot ring

Chrome-plated foot ring, adjustable in height.

Provides support through the wide tread area and can be easily and quickly adjusted in height.
